

## AquaMar Las Olas is Completed and Move-In Ready

Ocean Land Investments, led by Jean Francois Roy, today announced that AquaMar Las Olas boutique condominiums are now completed. AquaMar's residences are situated on the prestigious Isle of Venice Drive. The 20-residence development features luxurious waterfront condominiums and a compelling array of amenities that encourage an active lifestyle.

AquaMar is the third of Ocean Land and Dennis Eisinger's Aqua-branded projects to be completed, joining AquaVita and AquaLuna. Winmar Construction, one of South Florida's most respected builders, served as the project's general contractor.

With residences that range in size from 2,531 to 3,439 square feet and priced from \$1.4 million to \$2.5 million, the property features an array of sophisticated, world-class features and amenities, including boat slips that can accommodate vessels of up to 50 feet, making AquaMar an ideal fit for boating enthusiasts.

All five Aqua-brand developments – AquaVita, AquaLuna, AquaMar, AquaBlu and AquaVue – feature deep water yacht slips with ocean access and no fixed bridges. "AquaMar is one of the most unique and desirable addresses in South Florida," said Jean Francois Roy, President of Ocean Land Investments. "Coupled with access to the area's shopping, proximity to the beach and entertainment, our buyers fully appreciate the unprecedented value they are being afforded. AquaMar is truly one-of-a-kind."

Within each lavish condominium, soaring 10-foot ceilings, floor-to-ceiling windows and glass doors frame an open and inviting space, and expansive terraces offer breathtaking waterway vistas.

One of AquaMar's incredible features is its 'Dream Garage.' From custom designed porcelain floors to Italian 'wooden' ceilings, and electric car-ready spaces, it is a luxury living room for your car.

Deluxe kitchens feature Italian cabinetry, quartz counter tops, and Sub-Zero and Wolf appliances. Spacious bedrooms have large walk-in closets, and bathrooms are graced with designer finishes such as frameless, glass-enclosed showers.

AquaMar's residents are afforded the utmost privacy and security, with elevators that lead to a private foyer entry, 24/7 video surveillance and fob-secured access into the garage, building and elevators. Each resident can access their private rooftop terrace from their elevator. The properties are also pet friendly and smoke-free (excluding balcony areas).

Ocean Land Investments' condominium projects offer unbeatable accessibility and proximity to Fort Lauderdale International Airport and Fort Lauderdale Executive Airport in addition to Port Everglades and major highways.
