

Ocean Land Announces That AquaMar Is 100 Percent Sold Out

May 14, 2018

Boutique, waterfront luxury condominium is the third of five Aqua-branded developments to sell-out

[Ocean Land Investments](#), led by Jean Francois Roy, today announced that [AquaMar](#) is 100 percent sold, the third Aqua-branded community to sell-out, and joining [AquaLuna](#) and [AquaVita](#) in that achievement.

Only [AquaVue](#), with three residences available, and [AquaBlu](#), with seven available residences remain for sale within the successful Aqua-branded boutique condominiums.

One of South Florida's most appealing and price-competitive luxury communities, the remaining inventory of the contemporary waterfront series range in price from \$1.6 million to \$4.5 million, with square foot prices starting at \$550/sq. ft.

“We are proud to deliver the finest contemporary boutique developments on the water in Fort Lauderdale,” said Jean Francois Roy, President of Ocean Land Investments. “The sales success of AquaMar confirms these special niche condominiums fulfill the desire for residents looking to have private and spacious luxury living without compromise.”

With three units remaining for sale, AquaVue, the only new construction condominium project on the Isles of Las Olas, features eight loft-inspired residences with three bedrooms and three-and-a-half baths, each spanning 2,850 square feet to 2,864 square feet.

The contemporary AquaVue, located within the highest income neighborhood in Ft. Lauderdale, features residences that afford seamless flow and cross-ventilation between rooms via sliding doors to the master and guest bedrooms. Spacious bedrooms feature high ceilings and walk-in closets, and bathrooms include designer finishes such as frameless, glass-enclosed showers. Premium kitchens are equipped with Italian cabinetry, quartz countertops, and Sub-Zero and Wolf appliances, including Wolf induction cooktops. The units will be delivered decorator-ready.

With seven units available for sale, overlooking Fort Lauderdale's historic Bonnet House Museum and Gardens and with breath-taking ocean and Intracoastal views, AquaBlu offers two- and three-bedroom units – ranging in size from 2,136 to 3,258 square feet.

As the largest of the Aqua-branded residences, AquaBlu has a cutting-edge contemporary design with world-class amenities, providing residents with a state-of-the-art fitness center, a heated pool, and outdoor barbecue area. Privacy and security are also a priority, with elevators that lead to a private foyer entry to each residence, fob-secured access to the garage, building and elevators, as well as 24/7 video surveillance.

Developing properties that meet the high demand for residences that offer sophisticated city living, while combining the relaxing pleasures of a waterfront lifestyle is what makes Ocean Land Investment properties so remarkable. Ocean Land's portfolio of condominiums are in prime locations within walking distance to popular restaurants and shops but still offer privacy to its residents and expansive waterfront and downtown Fort Lauderdale skyline views.
